CAREER OBJECTIVE

Enthusiastic and detail-oriented fresher seeking entry-level opportunities to launch a successful career. Equipped with a solid foundation in FullStack Developer and a passion for continuous learning. Expertise in designing, developing, and deploying modern web applications using technologies like React, Nodejs, MongoDB, and Express. Skilled in collaborating with cross-functional teams to deliver innovative and high-quality solutions tailored to business needs. Adept at problem-solving, optimizing performance, and ensuring seamless user experiences, with a strong focus on contributing to project success in smart manufacturing and beyond.

EDUCATION

Nabira Collage Katol

Aug 2019 – Jun 2022

Bachelor of science

PROJECTS

Job Protal [🔗](#) | React, Express, Node.js, MongoDB, JWT

December 2024

- Developed a full-stack job portal application using React.js for the frontend, Node.js and Express.js for the backend, and MongoDB for database management, ensuring a seamless user experience.
- Implemented user authentication and authorization features, allowing secure login and role-based access for job seekers and employers.
- Optimized performance and responsiveness, ensuring cross-device compatibility and efficient data handling through API integration and state management.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, Typescript

Frameworks and Libraries: Express.js, React.js, Node.js, Next.js, JSON

Developer Tools: Git, Visual Studio Code, Postman

DataBase: MongoDB, MySQL

UI Libraries: Bootstrap, Tailwind CSS, shadcn UI, Material UI

SKILLS

| • Communication | • Problem-solving | • Adaptability | • Critical thinking |
| • Time Management | • Teamwork | • Attention to Detail | • Collaboration |

CONTRIBUTIONS

Commonwealth Bank Software Engineering Job Simulation on Forage

November 2024

- Completed a job simulation focused on backend and frontend development for Commonwealth Bank's Software Engineering team.
- Modified an existing React/Redux frontend to enable icons, expanding expertise in React, Redux, TypeScript, NPM, and Git.
- Improved Git and Github skills, emphasizing effective communication through the submission of changes for team review. [🔗](#)

EXTRACURRICULAR

Code Clash 2025 - The Ultimate Coding Battle

March 2025

- * The competition challenged participants with algorithmic problems, data structures, and optimization tasks. It was an intense and rewarding experience, enhancing my ability to think critically under pressure. This participation strengthened my competitive programming skills and technical proficiency. [🔗](#)

Code Titans: Battle of Brilliance

Januray 2025

- * Code Titans: Battle of Brilliance, demonstrating strong coding skills and analytical thinking. The competition tested problem-solving abilities, algorithmic knowledge, and efficiency in writing optimized code. Engaging in such contests helped enhance competitive programming expertise and logical reasoning. [🔗](#)
